

ELEVATED BLEACHER MAINTENANCE CHECKLIST

Inspection and Maintenance

Periodic inspection and tightening of bolts etc. should occur at least annually, and is suggested on a regular basis depending on use. In addition, at least biennially, an inspection should be performed by a professional engineer or a registered architect. See your local code authorities for all requirements.

INITIAL	DATE	<u>BLEACHER UNDERSTRUCTURE</u>
_____	_____	CHECKED FOR PROPER ANCHOR/GROUND SILL ATTACHMENT
_____	_____	CHECKED FRAME AND CROSSBRACE LOCATION (PER PRINT)
_____	_____	CHECKED ALL BOLT CONNECTIONS
_____	_____	CHECKED ALL WELD CONNECTIONS
NOTES: _____
